

Mailer Guide

■ Determining the size of your mailer

Width =

Width of product + thickness of product + 1/2"

Length =

Length of product + thickness of product + 2"

*Tip:

Thicker products require larger mailers.

■ Bubble Mailers

PAPER BUBBLE MAILERS

3/16" thick bubble to protect delicate shipments. Gold paper construction. Seamless bottom.

POLY BUBBLE MAILERS

3/16" thick bubble to protect delicate shipments. White exterior. Water and tear resistant. Seamless bottom.

■ Poly Mailers

SELF-SEAL POLY MAILERS

Strong 3 mil poly.
Water-resistant and tear-proof.

■ Rigid Mailers

STAYFLATS MAILERS

Stiff fiberboard prevents bending.
For photos, posters and diplomas.
Self-seal flaps. White coated paperboard construction.
