

EP-1185

Premium Poly Pusher Tensioner

Tension Round Loads with Ease

This medium sized pusher tensioner features an elegant and durable design and provides superior tensioning capabilities. It is designed for round loads and poly strapping. The nose pushes seals forward while tensioning as the knob on nose clamps strapping in place while you seal. It tensions silently with roller bearings.

Features:

- Strap Type: Polyester & Polypropylene
- Strap Widths: 1/2-3/4"
- Round of irregular loads
- Use serrated pusher seals
